```python
# Nested If
if 10>5:
    print("10 is Greater Than 5") # 10 is Greater Than 5
    if 15<20:
        print("15 is less than 20") # 15 is less than 20
print("End of Scope") # End of Scope

Output
10 is Greater Than 5
15 is less than 20
End of Scope
```

```python
# Nested If
if 10>5:
    print("10 is Greater Than 5") # 10 is Greater Than 5
    if 15>20:
        print("15 is greater than 20") # Condition Failed will not Execute
print("End of Scope") # End of Scope

Output
10 is Greater Than 5
End of Scope
```

```python
# Nested If
if 5>10:
    print("5 is Greater Than 10") # Condition Failed will not Execute
    if 15<20:
        print("15 is less than 20") # Condition True, but Failed will not Execute
print("End of Scope") # End of Scope

Output
End of Scope
```

```python
# Nested If
if 10>5:
    print("10 is Greater Than 5") # 10 is Greater Than 5
    if 15<20:
        print("15 is less than 20") # 15 is less than 20

if 10<20:
    print("10 is Greater than 20") # 10 is Greater than 20

print("End of Scope") # End of Scope
```
